

Smaller Compact Size
Faster Easier Install
More Reliable

WOW
WATER-ON-WATER™
REVERSE OSMOSIS

- Compact footprint fits in half the space of other units
- Environment-friendly – uses up to 500% less waste water
- High flow self-cleaning membrane feature maximizes component life and minimizes cost of operation
- Patented **water-on-water™** tank provides constant flow to the last drop
- Safe and convenient, **sanitary rapid-change** filters offer consumer friendly maintenance
- Patented manifold design increases reliability

Replace your old RO System today!

Drop-in replacement for existing RO customers.
